

**ATLANTIC EUROPE**  
— SINCE 1993 —

# **PRESENTATION KIT**

## INTRO

We began trading in plywood, hardboard, and birch solids out of Eastern Europe in 1993.

Today, having strong ties with major manufacturers from Eastern Europe and Turkey, we are engaged in complex supply of developers and builders from all regions of the USA with kitchens cabinets, vanities, interior doors, base molding, flooring at the best prices.

We build strong business relationships with our clients and partners on the best terms and in the most effective, mutually beneficial and long-term perspective.

## KITCHEN & VANITIES

Kitchen cabinets, vanity cabinets, laundry cabinets both assembled and unassembled.

- 2. Delivery to the installation sites;**
- 3. Lifting to the assembly site;**
- 4. Assembly and installation;**

## Testimonial.

September 27, 2021

### Testimonial:

I am happy to provide a review of my experience with Atlantic Europe LLC. My name is Alex Ustilovsky. I have been a builder and developer for over 20 years in New York City and in Florida since 2012. I was introduced to Atlantic Europe LLC ("AE") through a contact of mine in the Florida real estate industry. Upon learning about the factories and products AE was selling I did my due diligence about their products and of course, prices. The advantages their products offered to me in comparison to what I was currently buying motivated me to give AE a try. AE was very responsive in providing me with professionally rendered drawings and worked at helping supply me with product options that would optimally serve my needs.

For my kitchen cabinetry, I purchased their MDF Shaker Door Style in White Paint and for the base cabinets I installed Hettich Innotech Euro drawers that are very superior to anything else available in their class. I purchased the cabinets assembled and they arrived in strong cartons, on pallets in perfect condition with inflatable bladders installed between the cabinets and the container walls. I couldn't have been happier with the cabinets or the care with which they were shipped. Unloading the products with a forklift was fast and easy.

I also decided to buy a container load of VILA-97 solid pine core doors that had an Ash Wood veneer surface that received a white-toned Sherwin Williams paint stain with a UV finish. The doors are absolutely beautiful! I decided to buy them "prehung" L or R. The door jambs provided were 4 1/2" wide by 21mm thick! I was floored by the quality, finish, jambs, hinges, and the hardware used. The doors were impeccably packaged and shipped with inflatable bladders to protect the cartons against the metal containers. Every piece that we have opened has been in perfect condition and was ready to be installed immediately.

AE and their factories made sure all the details we needed to receive with our orders were carried out to a "T". Upon seeing the added quality for the "upgraded" doors, more than 50% of my customers opted for the AE solid wood doors over the Masonite or Jeld-wen standard option. It was a "Win-Win" option for my customers and for me too.

Like many FL and US developers, we have run into some issues with materials and construction challenges that have delayed our timetable. We are working through those particulars and have every intention to continue with AE in the very near future.

#### GREENGUARD CERTIFICATION

AGT Flooring Series has the Greenguard certificate, which contributes to the creation of healthier interiors. The Greenguard certificate is a certificate that shows that the chemical substances in the products used in indoor activities are within the limit values determined in terms of the efficiency of the indoor air.

#### A PIECE FROM NATURE

AGT Flooring Series give a beautiful natural look you are aiming for. Thanks to the unique surface of AGT Floorings you can create the tree texture and the good nature vibes at living spaces.

## SUSTAINABLE IDEAS

AGT derives the raw material it uses in its production from sustainable managed and 100% recyclable trees and tree forms. AGT contributes to sustainable production by converting wood waste into electrical energy in its own Biomass Power Plant.

## ANTIBACTERIAL

AGT Flooring Series offers you and your loved ones a healthy living space thanks to its specially developed antibacterial feature.

## EASY AND FAST INSTALLATION

Thanks to its Click to Fit feature, AGT Flooring Series is quickly and easily applied. In this way, it saves time, and a strong laying is made thanks to its structure which holds it tightly together.

**HIGH DURABILITY**

AGT Flooring Series are produced from high density tree fibers and thus reach a very strong form. Thanks to that technology, it offers high strength and scratch resistance, and has been used for years.
